

HIV and Aids in the Workplace

CPD-accredited

Category E on the Learning Programme Matrix

2,5 hours | 2 CPD points

HIV and Aids is a global pandemic but is of particular concern in South Africa. The virus has taken the lives of millions of people, and has caused unforeseen ripple effects in the workplace. When it comes to your organisation, it is of utmost importance that you and the people around you are informed about this virus and its effects. Not only does HIV have detrimental effects on the people living with the virus, but it also impacts on their loved ones and on their ability to work.

This course provides a better understanding of HIV and Aids, and its effects on you and your organisation. It covers the following topics:

- What HIV and Aids is.
- The effect of HIV on the immune system.
- Treatment.
- The effect of HIV and Aids on the workplace.

This course is aimed at everyone in the workplace who would like a better understanding of the HIV and Aids pandemic and its effects – particularly its effects on the work environment.
